Child Progress Report

Fousseini is in good health. There is no change with his diet porridge for breakfast, sorghum dough for lunch and diner. He has a good rhythm of growth.

After class, Fousseini takes care of the family animals; now, he takes part in the farm work. He keeps on making small cars and balls with old plastic bags. He loves playing football with his friends. He rejoiced a lot on the occasion of the celebration of the African Child Day on June 16th 2010; that day he danced and ate special foods with the other children of the village.

Fousseini moves up to the 3rd grade of the primary school (2010/2011). He is good at mathematics and reading. He received school supplies from the Development Unit.

All the members of the family are doing well; their main means of subsistence is agriculture. They got many crops because it rained much. In addition to agriculture, the mother does some market gardening. The family intends to extend the field. The mother plans to boost her petty trade. They have decided to send Fousseini live with his cousin in Sido.
