Dear sponsor,

We are pleased to send you the annual report of your sponsored child. If you have questions, please contact BØRNEfonden's office in Copenhagen.

Child Progress Report

Salam is in good health. He has a ring worm at his head and we advice his parents to take him at the health centre for cares. He received medicines from the office in charge of health to prevent parasites in March 2011. Salam eats 3 times a day.

Salam is helpful. He does minors works with his parents in the fields. He also looks after the animals. He enjoys playing football with his friends and he likes running too. He was happy to attend to the entertainment days organised by the Development Unit for children in September 2010.

Salam does not yet attend school. His sister Safiata attends grade 3 and she received educational support from the Development Unit.

Salam's family is in good health and they live on farming and breeding. The family also benefited from the same medicines like Salam. His father is a traditional healer. In the dry season, his mother sells rice. The family is busy now with farm works.
